I. INTRODUCTION / CONTEXT

Over the past school year this project has supported 206 vulnerable pupils: 16 at Tsianolondroa Primary School, 90 at the Lapan'ny Ankizy Centre, and 7 individual pupils (5 in Ambatofinandrahana and 2 in Fianarantsoa town). This in addition to one handicapped girl and her family, the Andaobato centre for the handicapped (who look after 63 pupils) and 7 students at the university of Fianarantsoa who continued to receive project support. The COVID-19 crisis did not stop the FBM-NT team from working to help those people in need.

II. ACHIEVEMENTS

II.1. Support for 16 pupils, existing beneficiaries who were re-integrated into Tsianolondroa Primary School

Activities went well despite the COVID-19 crisis: pupils finished the three terms (26th October 2020 to 30th June 2021) and every day of school year 2020-2021, when there was class, they had school lunch at the Lapan'ny Ankizy centre. The months of April and May were interrupted due to COVID-19 restrictions as schools were closed. Only children in the exam class (year 5 of primary school, 7^{ème}) were allowed to continue their studies but whilst respecting a strict COVID-19 protocol (washing hands with soap, wearing face masks and social distancing of at least one metre, ...). Pupils were provided with food parcels during this hard period. 6/15 of them passed to the next school year for the intermediate years, 1 out of 2 pupils passed the CEPE exam and 4/16 pupils dropped-out.

2.1.1 Provision of school kits

Pupils and parents came to receive their school kits, which were distributed to pupils on the 5th November 2020. They comprised notebooks, pens (4 colours especially for the second year (10^{ème}) until fifth year (7^{ème}) of primary school), pencils, coloured pencils, a rubber, a ruler, a compass, chalk (white and coloured), a sponge, a sharpener, and a protective cover for notebooks. There were slight variations on the kit provided to children in each year depending on their needs. Chalk (white and coloured) was also given to teachers who distributed to pupils as needed.

Freddy (left) and (right) happy pupils on reception of the school kits

2.1.2 Provision of school lunch

Pupils had school lunch every day during the second term. The menu varied from day to day: rice with green vegetables, beans, minced meat with macaroni, pork with chicken (special menu at the end of term).

Francisco and Jacentha eating school lunch at the Lapan'ny Ankizy centre

2.1.3 Summary of the school year result for the intermediate class

Number of pupils who sat the final exam	Number of pupils who did not sit the final exam	Average grade report available; pupils with average $\geq 10/20$ (years 1-4)	Average grade report unavailable; pupils with average $< 10/20$ (years 1-4)	Average grade maximum / 20	Average grade minimum / 20	Number of pupils who passed to the next school year
10	4 (drop-outs)	5	5	18,13/20 (RAVAOARISOA Marie Josiane, year 3 of primary school, she is the best in Class, 1 st out of 40 children	4.48 / 20	6

2.1.4 Provision of food

Since school was suspended for two months, the school lunch budget for this period was converted to the provision of food parcels for each of the 12 pupils to help them during lockdown. The first distribution was carried out on the 7th May 2021, with each pupil being provided with 3kg of rice, 4 eggs, and 1 local cheese to reinforce their antibodies – as well as 1 soap. The second distribution was held on the 6th June 2021, with each pupil being provided with 1 litre of cooking oil, 3 cups of beans and 2 packets of porridge with milk (“farilac”) to strengthen their antibodies.

Parents picking up the first and second food parcels

2.1.5 Excursion to Ranomafana Park

Apart from the school activities, pupils visited the Ranomafana National Park to explore nature. The goal was to further personal development for each pupil and to inspire them to protect the environment by exploring new areas. It was to encourage curiosity about culture, nature and the environment, to increasing knowledge about the forest and its biodiversity. It provided them with a change of air by tasting the beauty of nature. There were 57 participants : 51 beneficiary students, 6 monitors including 4 FBM-NT Agent (Noella, Anjarasoa, Fifi and Falisoa) and 2 teachers from EPP Tsianolondroa (Ms. Mamy and Ms. Felana). The 57 participants did a trail lasting 2 ½ hours accompanied by a guide for full explanation. We saw various plants: Ravinala (endemic to Madagascar), Rosewood (precious hard wood), a giant Eucalyptus, Chinese guavas, bamboos and palm trees, as well as various animal species: Varibolomena (Auerecerus), various lemur species, birds and reptiles. Finally, the participants crossed a long bridge over the Namorona river, which is the source of many tributary streams.

Pupils are amazed to see a lemur in the national park for the first time

After walking and visiting the park, pupils eat their picnic at the view point

II.2. Birth certificate campaign

Help was provided to 9 vulnerable children who have no birth certificate. This is very important because it is an essential document to be able to go to school and it is a proof of citizenship.

Beneficiary pupils undertake a medical check before undergoing the official judgement.

Left to right: Fidelo, Jean Claude and Nambinintsoa are happy to receive their birth certificates.

II.3. Provision of desks and cupboards for the teachers at Tsianolondroa Primary School

Nursery school classes at Tsianolondroa Primary School received 20 small coloured tables and 40 small coloured chairs. So, each of the 4 nursery classrooms received 5 little tables and 10 little chairs. In order to keep books safe, the teachers received 8 cupboards. They were very grateful to receive this.

Left to right: the chief of the district educational authorities, the head teacher of Tsianolondroa primary school and the deputy chief of the district educational authorities responsible for nursery-level pedagogy receives the desks and cupboards.

Nursery class with the new little tables and chairs.

The teacher of year 2 (10^{ème}) use the new cupboards for their books and exercise books.

II.4.Support to Lapan'ny Ankizy

In addition to the 16 pupils there were 90 other pupils from vulnerable families who eat lunch every school day at Lapan'ny Ankizy. 47 of them were educated at the centre and 43 at normal schools.

Pupils in Lapan'ny Ankizy centre during the school lunch

II.5. Schooling of individual vulnerable primary school children from Fianarantsoa

Anido had his 1st year at secondary school and has passed to the 2nd year now. His last average marks were 10.19 out of 20 and he was 44th out of 46 children. The project paid his enrolment fees and for his school kit. This school year 2021-2022, he continues to studies at St Joseph school in Ambozontany Fianarantsoa.

Prisca moved to study at St. Joseph's School in Ambozontany Fianarantsoa in the middle of the school year 2020-2021 because she had a problem of social discrimination in Ambatofinandrahana. Nonetheless, her last average marks were 17.90 out of 20 and she came 3rd out of 20 pupils. She passed to year 5 of primary school and continues to study in Fianarantsoa this school year 2021-2022.

II.7. Support to 7 university students from vulnerable backgrounds in Ambalavao district

Over the past academic year 2019-2020, there remains 7 students who were supported by the project at the University of Andrainjato in Fianarantsoa Madagascar. They received a scholarship of 100,000 Ariary a month over the period from November 2020 to July 2021. Students' studies were interrupted by the COVID-19 crisis and administration strike, so the year was extended for 3 months (August, September and October) over which time students waited for their exam results. During this time they received 50% of their scholarship stipend to help them during the "hungry period" (when the price of rice is highest in the market) and to paid their rent.

2.7.1 Mamitiana Saunia (physics ENS)

Saunia is 22 years old and comes from Sendrisoa municipality. He studies Physics and Chemistry at the "Normal High School" (ENS). He passed to third year in the university and passed his first exam. For the new year he began to study on the 2nd November 2021. During his second year, he started to teach extra classes (giving more explanation about electrostatics and electrokinetic lessons to first year students), after which he received a university certificate at the beginning of

the year. He did an internship in the secondary school in Mahazengy Fianarantsoa as a physics teacher over 2 weeks. During the confinement he often helped the “terminale” class of high school students benefiting from the MEO project (sponsorship) by giving exercises on physics and mathematics.

Mpanoratra:

Samia
Saunia

Thank you letter from Saunia :

"First I thank and honour you all who help me with my studies: FBM-NT, all the donors.

I, Saunia Mamitiana Samuel, am happy to say that this project and support is beneficial to me especially to my studies - so I passed to the year 3 in the university.

I am happy to have FBM-NT support and I promise to give my best. I thank you, you all who don't leave me; this support is important to me so I can prepare my future and my country".

Saunia's thank you letter

2.7.2 Jean Robert

Jean Robert is 23 years old. His home village and municipality is Sendrisoa. He is studying Tropical Biodiversity at the Science faculty of Fianarantsoa University. He passed to the next year (L3). During the holidays, he returns TO his village to help HIS family with farming. He has already completed a test to enter the police force this year, but he did not pass. He thinks that there was a lot of corruption in the system.

ANTONY:

FISAORANA NY MPAMATSY VOLA SY NY
NY TANINTSIKA

Izaho izay volaza anarana eo ambony dia maneho ny fisaorana ny mpamatsy vola sy ny Ny Tanintsika tamin'ny fahomezana ny vatimpianarana iray ny izay volana nandritra ny fotoana manaraha tany amin'ny Université ary fa na dia tamin'ny fotoana fialan-tsabatra aza dia mbola nandray ny antsiarany hany izahay koa ankehitriny faly dia faly tokoa ny fako eto ampanonantana ity taratasy fisaorana ity satria afaka nandry ny fianarana sora anantrana any amin'ny anjery manomboka ny tenako mitovy amin' ireo namako rehetra ary voahaja ny zo amin'ny maha ankizy ahy. Koa matoky izaho fa hamba antsiarany sy andavanany ny fianarana izaho ary mino aho fa ho tsitrako ny tanjoko raha izao fanatrahana aza izao no mitohy.

Marahiko etoana fa raha tsy ianareo mpamatsy vola sy Ny Tanintsika dia tsy afaka nandry ny fianarana intsony ny tenako satria tsy apy ny hofa-mahana amin'ny rindry aman-dRenin'ny hafa-hiranana amin'ny hafa-mahana amin'ny hafa-mahana.

Ary farany dia manatena ny fitohizany ny fianarana miasa tompoko ny tenako ary mbola mamerina ny fisaorana sy mbola maneho ny hafa-mahana anareo.

Misaoitra tompoko!

Scma

RAFANOMEZANJANAHARY Jean Robert

Thank you letter from Jean Robert:

"I thank all the donors and Ny Tanintsika NGO for the scholarship every month over my two years study at university. Even during the holiday period, we receive 50% of the scholarship to cover our house rent. My heart is very happy in writing this thank you letter because I can continue my studies at university like my friends and I think that my rights as a young person are respected. I hope that I can finish my studies to the end and I believe I can reach my goal if this support continues. I could not continue my studies without you, donors and Ny Tanintsika, because my parents are poor so they cannot pay for my studies. Finally, I hope that our cooperation will continue. Thank you, I am very happy. Thank you".

Noeline's exam results for the 2nd semester exam in year 1

Thank you letter from
Noeline :

"I am very thankful to the donors who support my studies. Thanks to your help with supplies, I can continue my studies at university. Without it, this would not be possible. So, I am very happy, many thanks and I hope that this support continues until my Master 2 degree so I can reach my goal. I passed to year 3 at the university. Many thanks, I love and need your support."

Ny
 Mamatsy vola

Antony: teny fiasanana

Izaho izay volaza ananana sy ny mombamomba eo ambony dia faly
 any manontana izao tanatany fiasanana izao, naho ny fiantohana sy ny fiantaisanana
 an-tanana ny fiananaho. Naha tsy teo ny ONG ny tanintsika sy ranaso Mamatsy vola
 dia tsy afaka nanohy fiasanana intsony aho, naho ny fahasahanana.
 koa moho izany dia velom-pisazana sy fankasi-trahana izahay, hita
 fa izava-dehibe ny fanampianana anay. Izahay koa dia vonona hahangy
 hiazaka amin'ny fiasanana izay sahanina.
 Manatena ny fitohizany ny fiasanana hahangy izahay, indro any
 ny voninahitra atotoho anao

Misaotra tompoko.

 Rijaso

Thank you letter from Rijaso:

"I'm happy to write this letter to thank you for your support during my studies. Without you all: Ny Tanintsika NGO and the donors, I would not continue my studies because of our poverty. So I am very thankful, your support is important. I will do our best for my studies. I hope the continuation of our cooperation. I give the honor to you."

Antony: Teny fisaonana ny mpamatory vola

Izaho RASOA Françoise Eliane dia faly misaotra aminareo amin' ny fanampiana izay ataonana amin' maha-banika ny fianarana izay ataoko eny amin' ny University fianarantsoa. Fa raha tsy nisy anareo dia tsy afaka nanohy ny fianarana izaho noho ny antony fahasahiranana ireo Ray aman-dreniko salua mbolo tany taona izaho dia maty ny reniko ka lasa namambady hafa ny dadako dia nipehaka tamin' ny bebeho sy dadake izaho dia ireo no mitaiza ahy nandritra ny folo taona. Folo taona taty aoriana anefa dia maty ko ireo mitaiza anahy io afaka BEPC izaho tamin' izany dia lasa misoratra anarana tamin' ny fandraisana mpianatra afaka BEPC amin' ny Tanintsika (MEO) dia voaray tamin' izany izaho dia niantoka anahy izao nandritra ny telo taona hatramin' ny Seconde mandra-mpahatonga Terminale. Iy afaka BAC koa anefa izaho dia mbola noraisinareo tanana ny fianarana eny amin' ny University.

Hoho izany dia faly misaotra anareo ny tenako tamin' ny Soa vitanareo taniko hatrany ka hatramin' izao Andriamanitra manabonana fahasahana an' i hamaely soa anareo.

~~RASOA~~
RASOA Françoise Eliane

Thank you letter from Eliane:

"I thank you for supporting my university studies in Fianaranstsoa. Without your support, I could not continue my studies because my family are poor. My mother died when I was 5 years old, so I lived with my grandparents. After 10 years my grandparents died too when I passed my BEPC exam. That's why I applied for a scholarship with Ny Tanintsika NGO (MEO project). I was accepted and they supported me for three years, throughout high school. And when I passed my baccalaureate exam, you accepted to help me continue my studies at university. So, I am happy to thank you for your all support. May God bless you."

Le Doyen
RABEMANANJARA Vololonirina Alisambatra

Elysée' second session grades during the first year

ANARANA: FITIAVANJANAHARY

FANAMPINY: Joachime Elysée

Filiène Drot

NIVEAU: L2

Antony: TARATASY FISAORANAN'NY MPAMATSY
VOLA

Izaho FITIAVANJANAHARY Joachime Elysée ian'ny mpi-
natna nahazo tombontoa ao amin'ny ONG Tanintsika dia faly
manome fisaonana anareo mpamatry vola noho ny fanam-
piana lehibe nataonareo hatramin'izay ka hatramin'izao
izay mahafahako nandry ny fianarana indray.

Moriliky entanaka, toy manana fahafahiana nandry fana-
ana zaho raha toy niny ny fanampiana ary aminareo indrindra
ny antony maha ka miteraka toy fahampiana ara-bola.
Noro izahay no inay tam-po zanak'i dada sy neninay. Noho izany
dia ny ara-dalana introny ny fiandrahan'ny fianarana
ka lasa olana goavana ao amin'ny fiainanay ny ny hoariny
zany. Noho ny fanampianareo anefa dia voavaha ny olana
goavana teo amin'ny fianarana ka afaka nandry indray aho
ary dia nahavita ny kilany faha roa any amin'ny fianarana
ambaratanga ambony.

Eto ampanonana dia fisaonana be dia be no
atolotra anareo mpamatry vola ao amin'ny ONG Tanintsika,
fianarana mba hitombo sy hitohy hatrany ny zaka ny fana-
mpiana izay efa nataonareo hatramin'izay ary izahay maha
zo tombontoa hoo dia manome tohy anareo fa hiezaka hatrany
mba hahazoana vola hafa sy fahombiazana.

mpanonatna.

Elysée

Thank you letter from Elysée:

"I, FITIAVANJANAHARY Joachime Elysée, one of Ny Tanintsika beneficiary students, is happy to thank the donors who support me until now so I can continue to study. I note that, without your support I cannot continue my study because of many reasons which leads to a lack of money. We are many in my family so my parents cannot pay for our studies. Thanks to your support this problem is resolved and now I am year 2 of university. Finally, I thank the donors and Ny Tanintsika. I wish that our cooperation continues and we the beneficiary students will make every effort to obtain good results and succeed."

2.7.8 Outing and visit to the tea processing factory in Sahambavy

This outing took place on Wednesday 24th February 2021. 9 students participated. They spent some time travelling to travel about 20km on a bad road. The visit started as they arrived at the SIDEXAM factory area where they learnt that tea is the most popular drink in the world after water. SIDEXAM is the only tea producer in Madagascar. As the Malagasy population is not yet a big tea consumer, it exports most of its black tea production to Kenya. Students' research focused on the comparative study of black tea and green tea from the company to give the difference between the two types of tea and to elucidate the Malagasy people on the beneficial effects on human health. They heard from the guide that black tea contributes to the good functioning of the nervous system, and prevents against the action of bacteria. On the other hand, green tea can prevent problems related to fat synthesis, so green tea is a remedy for obesity. It should be noted that only the regular consumption of these drinks could lead to these beneficial effects and, moreover, medication must be taken away from its consumption. So the students were happy for the donation of money you gave in foreign currency which enabled this visit to happen. "Thank you very much!!"

The students take notes and see the tea processing

Tea processing machine

The technician explains the finished product

Students had a picnic after the visit

II.8. Individual support

2.8.1 Vola in Andaobato centre

Vola studies with other handicapped children at the Andaobato Centre. She has lived in Noro's house since the 18th January 2021 and continues to study there this school year (2021-2022). She is very intelligent and speaks quite clearly.

Vola at home

Vola with her classmates (she is in the middle with green clothes)

2.8.2 Supporting her mother's income-generating activities

The project gave Vola's mother one large packet of second hand duvets and bed linen as a start-up supply. Before she started selling we gave her training on entrepreneurship.

Entrepreneurial culture training with Vola's mother

Vola's mother prepared the second hand duvets and bed linen (fixing the price for each article)

Vola's mother leaving to sell the duvets (walking to market)

2.8.3 Livelihoods support

Entrepreneurship training for the parents of pupils supported/

Parents' business

II.9. Centre for the handicapped: Andaobato

2.9.1 Construction of the wire fence along the stairs to the toilet block

The project put in place a wire fence along the stairway to the toilet block at the centre for the handicapped. This was very much needed because pupils tended to run down to the river and far away since there is no wall around the grounds. It helps some pupils who experience difficulty in using the stairs and stops them from falling down.

Before construction

After construction

2.9.2 School lunch

The centre asked for help during a difficult period they experienced over two months (June and July 2021) towards the end of the school year 2020-2021, in order to pay for supplies for the school canteen. As a result of COVID-19 and school closure, many parents were unable to pay their monthly fees which usually covers this cost. Help was given to feed 63 handicapped pupils and 6 teachers.

Every school day, pupils had a break with milk and bread

School lunch in Andaobato centre for the handicapped

II.10. Sponsorship request from the nuns at Lapan'ny Ankizy

The following children's sponsors died from COVID-19 in April 2021. The nuns have not received new supplies since February 2021 so they are in a difficult period but they want to continue to support these children.

- Tojo (year 3 of high school, Terminal), Rolland & Marcel (year 1 of high school (2nd), they passed their BEPC exams last year): they are siblings, studying at the CIM Sisters in Sevaina. Their father does not take care of them, their mother has a mental illness so they live with their uncle in Sevaina.

Tojo, 18 years old

Rolland 21, years old

Marcel, 15 years old

- Onja (year 1 of high school (2nd), passed her BEPC exam last year) and Nantenaina (year 4 (3^{ème}) of secondary school) are twins, and Malala (year 2 of high school (1^{ère}) who is another sibling. They live in Ampopoka with their mother who is a laundress but their father is an alcoholic. Onja and Nantenaina study at Lycée Monseigneur

GIVELET Ankofafa Golf managed by the Auxiliatrice nuns, but Malala is at Lycée Raherivelo Ramamonjy (LRR) Anjoma.

Onja 15 years old

Nantenaina, 15 years old

Malala, 19 years old

- Jonhy (year 1 of high school, he passed his BEPC exam last year) and Omega (year 4 of secondary school) who are siblings, studying at Lycée St Joseph Ambozontany managed by the Frères Sacré-Cœur. They live in Ambalapaiso with their father who is a driver's assistant and their mother a laundress.

Jonhy 16 years old

Oméga 14 years old

These are the reasons they request help if possible or to the best of our ability.

II.11. Parents, teachers and head teacher request

There are 39 vulnerable pupils from Tsianolondroa primary school who cannot continue to study because their parents have no money to pay for their enrollment fees and their school kits. The detailed information and their photos are in appendix.

THANK YOU !!!
